Course: ADS-A

Date: 12 September 2019

Project: Q&A session preparation

- Is it possible to receive more data in case we need it?
- How may we contact you?
- Is the data in the dataset sensitive and should we be careful with it?
- What analytics are you currently using?
- Who are your competitors?
- What is the main advantage your company has?
- Are there known errors within the dataset?
    - If possible, can you list them?
- What are the current analytics used for?
- When it comes to analysis, what department has the biggest priority?
- Is there an existing database model?
    - If yes, could you share this with us?
- What is the highest cost factor within your company?
- What are your business values? (e.g. profit or knowledge)
    - Which value is most important to you?
